INFLATING THE BALL

CONTENTS:
1. Frame tube (x12)
2. Straight connector (x8)
3. Elbow connector (x4)
4. Bag (x1)
5. Netting (x2)
6. Tension strap (x2)
7. Securing peg (x16)
8. Ball (x1)

1. Using the straight connectors, join two sets of 3 frame tubes.
   NOTE: If connector joints are tight, lubricate with washing up liquid.

2. Slide a set of frame tubes into each of the fabric tubular edging of the net.

3. Insert the elbow connectors into one frame tube, ensuring the locating buttons face the same way.

4. Place one end of the goal on a clean firm surface. Holding the top of the frame tubes, push downwards slowly; the frame tubes will bow, allowing you to push together the elbow connector, at the top of the goals.
   Turn the goal over and repeat.

5. To connect the tensioning strap, loop one end around the locating button on the elbow connector.
   Place the connected end on a clean, firm surface. Holding the top of tubes, push down slowly and loop the free end of the tensioning strap over the top locating button.
   CAUTION: When assembled the goal is under tension. Extreme care must be take when disassembling.

6. Position the assembled goals and fix to the ground using 16 pegs.
   NOTE: To secure frame firmly to ground always anchor two pegs together (as shown) at anchor points indicated. Secure pegs using a mallet.
   CAUTION: Check regularly that pegs are secure. Loose pegs may cause injury. Care should be taken when using a mallet as misuse may cause injury.
