**SAFETY GUIDELINES**

The flat swing seat does not have a back or seat belt. It is not suitable for children under 3 years as they may not be able to balance themselves. For children under 3 years, please use the baby swing seat.

This equipment must be assembled and checked by an adult. Two adults may be required to assemble this product.

For family domestic use only. This product has not been designed for commercial use in play centers, nurseries etc.

Adult supervision is required at all times.

Only one child per seat at any one time.

The baby seat is designed for baby with a body weight no more than 20kg

The item is not designed for adults or for children weighing more than 45kg

For outdoor use

Check all nuts, bolts and fittings for tightness and tighten if required.

Check all coverings for bolts and sharp edges and replace when required.

Check swing seats, chains, ropes and other means of attachments relevant to your product for evidence of deterioration. Replace when required in accordance with the manufacturer’s instructions if necessary.

Place the product on level surface at least 2 metres from any structure or obstruction such as a fence, garage, house, well, overhanging branches, laundry line or electrical wires.

The items MUST be anchored firmly into the ground.

DO NOT install the product over concrete, asphalt or any hard surface.

DO NOT orientate the product directly towards the sun.

Leave all fittings finger tight until assembly is complete, for ease of construction. Then tighten firmly.

Children should not wear cycle helmets whilst on this equipment.

Do not allow children to stand on any swing seats, glider seats or slide chutes relevant to your product.

Do not allow the children to climb or climb off any moving equipment.

Do not twist swing ropes or wrap them over the top bar.

Do not allow loose, hooded or baggy clothes to be worn as children can get trapped and may be unable to free themselves.

Do not allow children to climb on parts of this equipment not intended for this purpose.

Do not allow children to wander into the play area whilst the equipment is in use.

Gloves and swings must not exceed an angle of 80 degrees from the ground.

Regularly check the item for wear and damage, removing the item from use when necessary until replacement parts are fitted.

Failure to assemble and maintain this item as per instruction may cause injury to the user.

Please keep the instructions in a safe place for future reference.

ASSEMBLY INSTRUCTION FOR TODDLER SWING
TODDLER SWING FOR CHILDREN 18 MONTHS TO 36 MONTHS
PLEASE RETAIN UNUSED SWING COMPONENTS FOR ASSEMBLY OF JUNIOR SWING

STEP 1 Frame & Swing Seat Assembly

11. PLASTIC PIN (X2)

Step A: Carefully fold over the seat armrest followed by the base as shown in the diagram.

Step B: Position the back so that it is at a 90 degree angle to the base, pushing down on it until it clicks into place. You can check the seat is aligned as you will be able to see through the holes on the side of the seat.

Step C: Once the seat has been aligned, push the two orange pins firmly into the sides of the seat until they fully fit into the backrest. Please note that if the pins are forced into the seat when it has not been aligned, it will cause the pins to break.

STEP 2 Frame & Swing Assembly

F1. M8 U BOLT (x2)
F5. M6 BOLT 35mm (x4)

Remember to attach the rope clamp to the U bolt

Note: If the soil is hard enough, it may not be necessary to concrete the ground pegs of the baby swing. If the pegs are concreted, additional ground pegs (not provided) will be required for the single swing.

Note: Additional ground pegs can be requested from MV customer services.

STEP 3 ANCHORING SWING TO GROUND

F4. M6 BOLT 58mm (X4)

Take care when seating your child. The child must be secured to the seat by fastening the seat belt immediately to avoid any injury.
