LeisurePlay

MATRIX PLAYGYM

For children aged 3 to 10 years

SAFETY NOTES

Not suitable for children under 3 years, contains small parts. The flat swing seat does not have a back or seat belt. Young children may not be competent to balance themselves. This equipment must be assembled and checked by an adult. Please retain complete instructions for future reference.

For family domestic use only
For outdoor use
Check all nuts and bolts for tightness and tighten every time before use.
Check all coverings for bolts and sharp edges every time before use and replace when required.
Check swing seats, chains, ropes and other means of attachments for evidence of deterioration. Do not use if deterioration is found.
Place the swing on a level surface at least 2 meters from any structure or obstruction such as a fence, garage, house, overhanging branches, laundry line or electrical wires.
This item MUST be anchored firmly into the ground.
DO NOT loosen the rope. Otherwise the seat will fall and cause danger.
DO NOT install the swing over concrete, asphalt or any other hard surface.
DO NOT orientate the swing directly towards the sun.
Leave all fittings finger tight until assembly is complete (for ease of construction) - then tighten firmly.
Always supervise young children at play until they are physically competent and confident.
Children should not wear cycle helmets when on this equipment.
This item is not designed for adults or for children weighing more than 45 kg (7 stone).
The total weight on the playgym at any one time must not exceed 14.5kg (22 3/4 stone).
DO NOT allow children to be seated on the swing or glider seats.
DO NOT allow children to get off the swings or glider when they are still moving.
DO NOT twist swing ropes or wrap them over the top bar.
DO NOT allow loose, baggy or hooded clothes to be worn, since children can get trapped and may be unable to free themselves.
DO NOT allow children to climb onto or parts of this equipment not intended for this purpose.
DO NOT allow other children to wander into the play area when the equipment is in use.
DO NOT allow children to slide head-first down the chute, or walk up the chute.
Sliders and swings must not exceed an angle of 60 degrees from the ground.
Regularly check the item for wear and damage, removing the item from use when necessary until replacement parts are fitted.
This product is only designed for normal residential use, and is not intended for any commercial application in public areas such as schools, nurseries, day care centres, parks etc.

Failure to assemble this item as per the instructions may cause injury to the user.
Please keep these instructions in a safe place for future reference.

ASSEMBLY INSTRUCTIONS.

FRAME ASSEMBLY. Use fittings pack "MOD - FRAME"

**THIS PART SHOULD BE ASSEMBLED BY AT LEAST 2 PERSON.**

REMARK: The end with a label "TOP" should always fix with the leg brackets (1).

---

**PLATFORM ASSEMBLY. Use fittings pack "MOD - PLATATT"**

---

1. **P1.** 56 mm socket - head bolt x 2
   **F1.** M6 washer x 20
   **F2.** M6 dome nut x 10

2. **P2.** 37 mm socket - head bolt x 4
   **F3.** M6 washer x 10

3. **P6.** 40 mm socket - head bolt x 6
   **F5.** M6 washer x 14
   **F6.** M6 dome nut x 14

---

TAKE CARE NOT TO OVER-TIGHTEN.
1. Tighten all bolts. Do not over tighten.

2. Fully tighten all the screws, but do not over tighten.

3. *THIS PART SHOULD BE ASSEMBLED BY AT LEAST 2 PERSONS.*

   Fully tighten all bolts, but do not over tighten.

Make sure the stabilizer bar is centered when tightening the bolts. Do not overtighten. Fully tighten all the bolts.
**ASSEMBLY INSTRUCTIONS Continued.**

**SWING ASSEMBLY.** Use fittings pack "MOD SWING"

**Fittings pack parts list**

- **S1.** M8 "U" bolt x 2
- **S2.** M8 washer x 8
- **S3.** M8 domenut x 4
- **S4.** M8 washer x 4
- **S5.** M8 locknut x 4

---

**GLIDER ASSEMBLY.** Use fittings pack "MOD - Glideride"

**Fittings pack parts list**

- **G1.** 82 mm hexagonal-head M6 bolt x 2
- **G2.** 47 mm hexagonal-head M6 bolt x 2
- **G3.** 51 mm socket-head M6 bolt x 2
- **G4.** 34 mm socket-head M6 bolt x 8
- **G5.** 41 mm socket-head M6 bolt x 2
- **G6.** M8 domenut x 4
- **G7.** M6 domenut x 12
- **G8.** M6 domenut x 12
- **G13.** M6 washer x 4
- **G14.** M6 washer x 12
- **G15.** M6 washer x 12
- **G16.** M6 washer x 24

---

1. **When tightening the knots, push them as close as possible to the seat.**

2. **Allow at least 3cm of rope to protrude after the knot.**

3. **Tighten all nuts. Important: do not to over tighten.**

---

1. **Tighten the bolts firmly, but do not overtighten.**

2. **Tighten the bolt firmly.**
ASSEMBLY INSTRUCTIONS

CHUTE ASSEMBLY

Use fitting pack "MOD-FRONTSLIDE"

1. Note: fit the handrail support tubes to the short sides of the handrails.

2. DO NOT TIGHTEN AT THIS STAGE.
   Tighten securely. Do not overtighten.

3. Tighten firmly allowing a minimum of 1mm of bolt thread to protrude from the nut. Do not overtighten.

4. C1. 7mm socket head bolt x 2

5. C2. M6 washer x 28
   C3. M6 dome nut x 14

6. C5. M6 washer x 14
   Plastic bearings x 2

ASSEMBLY INSTRUCTIONS

CHUTE ASSEMBLY ...Continued

5. Place the chute against the front of the platform as shown.
   "Cut-outs" in the mat.

6. Tighten the bolts so that a minimum of 1mm of bolt thread protrudes from the nuts. Do not overtighten.
ANCHORING THE GYM TO THE GROUND

IMPORTANT......For safety reasons this product MUST be anchored and concreted into the ground. If you are uncertain about this procedure please contact our Consumer Services Department.

![Diagram of anchoring system]

1. Place the whole playgym assembly in the desired location - this should be a flat level bolt surface.
2. Mark 30 cm squares on the ground around each of the four legs, and the climbing pole (3 squares in all - see main picture on page 3), ensuring that the legs and pole end are right in the middle of each square. Move the playgym out of the way and dig the 30 cm square holes to a depth of 50 cm. Fill the holes with a stiff concrete mix.
3. Push the ground anchors through a stiff piece of card approximately 20 cm square - this will help prevent the anchor from slopping beneath the concrete.
4. Place the anchors into the centres of each concrete-filled hole and fill them back at an angle for maximum pull-out resistance (see diagrams).
5. Tighten up the bolts, but do not over tighten.

GUARANTEE

The metal framework to the equipment detailed within is guaranteed by Pot Black Ltd. for a period of 1 year from the date of purchase against breakage due to rust perforations. (This being defined as the rusting through of metal tubes due to corrosion from the "inside out"). Plastic components are guaranteed for a period of 1 year from date of purchase.

We take every precaution to ensure that this item is in good condition upon receipt. However, very occasionally parts do get damaged or are missing. Should this be the case with your purchase, firstly we apologise, secondly we invite you to contact our Customer Service Department 0123456700. Any defective parts or parts will (as we see fit) either be exchanged or repaired free of charge. This guarantee is subject to the product having been used for the purpose for which it was designed, and assembled and maintained in accordance with these instructions. This guarantee does not cover any damage caused by storms, fire or floods, or by neglect or misuse. Any repairs or alterations carried out could invalidate this guarantee. Please retain this guarantee and staple your receipt (proof of purchase) to these instructions for future reference.

This guarantee does not affect or prejudice any statutory rights you may have. Please contact our Customer Service Department regarding any query or claim on this guarantee. Any claim under this guarantee must be notified to our Customer Service Department within 30 days.

MANUFACTURED IN CHINA FOR

EX39 4PN

Now the assembly is completed, tighten up fully all nuts, bolts and screws, taking care not to over tighten. In the case of locking nuts these must be tightened until a minimum of 1mm of thread protrudes from the end of the nut. Remember to regularly check that all the nuts and bolts are secure.

ONCE ASSEMBLY IS COMPLETED...Before allowing children to play on this product, carefully check the equipment for any sharp edges and points. In the unlikely event that you do find any, please call our help line number below. Do not allow children to use this product until the problem has been corrected.

IMPORTANT

Make sure you read the safety notice on the front page, and always supervise children while they are playing on this equipment.
