This scooter is to be assembled by an adult. Please remove all packaging before giving to a child. WARNING: Read the information supplied by the manufacturer.

**STUNTED' XTC Scooter**

**FRAME ASSEMBLY**
1. Loosen the clamp and slide the handlebar stem over the fork column until it touches the lock nut.
2. Ensure that the handlebars are aligned with the front wheel and that the wheel is facing forwards (note the arrow on the front fork).
3. Using the Hex key do a quarter turn to tighten Bolt 1 then Bolt 5 then Bolt 3 then Bolt 4 then Bolt 2, repeat pattern until all bolts cannot be tightened any further.

**WARNING:** Failure to tighten the clamp fully will result in the handlebars not being secure and the scooter will be unsafe to ride. Overtightening one bolt before the other will make it impossible to tighten the clamp fully.

**SAFETY ADVICE:**
This is a wheeled self propelled scooter designed for a single rider only. It should never be ridden by more than one person at a time.
It is not intended for use as a toy, PT or any sort of vehicle. It should only be used by children of all ages and sizes with supervision.

**ASSEMBLED SCOOTER**
Please check all screws and fittings are secure before giving to a child.
Ensure all locking devices are engaged. Ensure there are no broken components.

Replacement parts are available by contacting MV Customer Service Helpline.

The item shall be used with caution as it requires great skill, so as to avoid falls or collisions which can cause injury to the user and third parties.

**WARNINGS:**
Protective equipment should be worn. MV recommends the use of a helmet and protective elbow, wrist, shin and knee pads when using this product.

User’s maximum weight 100kg. Not suitable for children under 3 years. Small part, Choking hazard.

The braking mechanism to reduce speed will get hot from continuous use, do not touch after braking.

Keep fingers away from moving parts to avoid pinching and entrapment.

**USE:**
Hold both handlebars firmly,
Put one foot towards the front of the deck.
With other foot, push off the ground to propel the scooter forward.
Both feet can fit on the deck when desired speed has been reached.

To stop, step on the brake with the rear foot.

**NOTE:** Illustrations may differ to actual scooter shape.

**TOOLS REQUIRED**
- Main frame
- Handlebar assembly
- Stunt Pegs (x2)
- Screw and Peg Axle (x2)

**STUNT PEG REAR WHEEL ASSEMBLY**
1. Using the hex keys release the wheel and remove the axle.
2. Push the long peg axle provided into the peg and through the wheel ensuring spacer in place as illustrated. Tighten the nut using the spanner provided until securely attached.
3. Follow the same method to attach the front peg. No outer spacers required.
4. Stunt pegs can be attached to either the right or left hand side of the scooter as required.

**A GUIDE TO SAFE SCOOTERING**
1. We recommend this scooter is for pavement use only. It is dangerous to ride on public highway.
2. Do not ride at night and in the dark. Visibility is often limited at dawn and dusk.
3. Always give pedestrians right-of-way, and don’t ride too close to them. Never park your scooter where it can cause a nuisance.
4. Avoid hazards that may cause you to lose control of your scooter such as pot holes, uneven pavements and manhole covers.
5. Leave plenty of room when passing parked vehicles and watch out for doors being opened in your path.
6. Remember that braking distance should be increased in wet weather, and regular checks of brakes, steering and lighting should be made.
7. Never carry passengers on your or scooter. Never carry packages in your hands while riding, or anything to your scooter that could obstruct your visibility or control.
8. Don’t wear anything that restricts your hearing.
9. Always ride with both hands on the handlebars.
10. Don’t wear very loose clothing, which could hang down and become caught in the wheels. Wear stuff and trousers to keep your trousers from getting caught in the wheel.
11. We recommend that light-colored or resistant clothing to wear which helps others to see you in daylight and poor light.
12. Always wear proper safety equipment. We recommend a helmet, long sleeve shirt, long trousers, shoes, elbow, shin and knee pads. Gloves and eye protection also make sense. Cover your handlebar, stem and top tube with safety pads for extra protection.

Please refer to the Highway Code regarding rules for cyclists.
