8+ YEARS

**STUNTED™ Stunt Scooter XL**

**FRAME ASSEMBLY**
1. Loosen the clamp and slide the handlebar stem over the fork column until it touches the lock nut.
2. Ensure that the handlebars are aligned with the front wheel and that the wheel is facing forwards (note the arrow on the front fork).
3. Tighten the upper bolt one quarter of a turn, then the centre bolt one quarter of a turn and then the lower bolt one quarter of a turn using the hex key provided. Repeat until the clamp is tight and the handlebars are secure.

**WARNING:** Failure to tighten the clamp fully will result in the handlebars not being secure and the scooter will be unsafe to ride. Overly tightening one bolt before the others will make it impossible to tighten the clamp fully.

**SAFETY ADVICE:**
This is a wheeled child propelled scooter designed for a single rider only, it should never be ridden by more than one person at a time. It is not intended for road use or for use with any motorized device. Use only on smooth, clean and dry surfaces away from other road users and pedestrians. Breaking action and wheel traction will be reduced in wet weather conditions.

Never leave the scooter unattended.
Please add oil to the bearings periodically for lubrication, using a few drops of light machine oil. After extensive use the wheels and bearings may become worn and could need replacing. Spare parts are available from MV Sports. Please contact customer services below for details.

A charge may apply for some items. Clean the scooter after use. Regular maintenance will enhance the safety. Do not modify the scooter in any way not outlined in these instructions.

Replace worn or broken parts immediately.

**FOR YOUR CHILD’S SAFETY:**
Check that all screws, nuts and bolts are firmly tightened, make sure that your child is capable of riding the scooter. Age or weight does not automatically indicate that a child is able to use the scooter safely.

Do not allow your child to ride unsupervised.

**ASSEMBLED SCOOTER**
Please check all screws and fittings are secure before giving to a child.
Ensure all locking devices are engaged.
Ensure there are no broken components.
Replacement parts are available by contacting MV Customer Service Helpline.

**THE ITEM MUST BE USED WITH CAUTION, SINCE IT REQUIRES GREAT SKILL, SO AS TO AVOID FALLS OR COLLISIONS CAUSING INJURY TO THE USER AND THIRD PARTIES.**

**WARNING: **
Protective equipment should be worn. MV recommends the use of a helmet and protective elbow, wrist, shin and knee pads when using this product.

**USE:**
1. Hold both handgrips firmly.
2. Put one foot towards the front of the deck.
3. With other foot, push off the ground to propel the scooter forward.
4. Both feet can fit on the deck when desired speed has been reached.

**TO STOP:**
1. To stop, step on the brake with the rear foot.

**A GUIDE TO SAFE SCOOTERING:**
1. We recommend this scooter is for pavement use only. It is dangerous to ride on public highway.
2. Do not ride at night and in the dark. Visibility is often limited at dawn and dusk.
3. Always give pedestrians right-of-way, and don’t ride too close to them. Never park your scooter where it can cause a nuisance.
4. Avoid hazards that may cause you to lose control of your scooter, such as potholes, uneven pavements and manhole covers.
5. Leave plenty of room when passing parked vehicles and watch out for doors being opened in your path.
6. Remember that braking distance should be increased in wet weather, and regular checks of brakes, steering and lighting should be made.
7. Never carry passengers on your scooter. Never carry packages in your hands while riding, or anything to your scooter that could obstruct your visibility or control.
8. Don’t wear anything that restricts your hearing.
9. Always ride with both hands on the handlebars.
10. Don’t wear very loose clothing, which could hang down and become caught in the wheels. Wear suit trousers or trouser clips to keep your trousers from getting caught in the wheel.
11. We recommend that light-coloured or mirror cloth material be worn which helps others to see you in daylight and poor light.
12. Always wear proper safety equipment. We recommend a helmet, long-sleeved shirt, long trousers, shirt, elbow, shin and knee pads. Gloves and eye protection also make sense. Cover your handbars, stem and top tube with safety pads for extra protection.

Please refer to the Highway Code regarding rules for cyclists.
